

Manufacturers Roundtable 2017

You're invited to learn more on July 27th

Presented by

The Manufacturers Roundtable program consists of four quarterly, half-day sessions designed for manufacturing CEOs and senior level managers. It allows leaders to leverage the knowledge of their peers to grow their own companies. Only 15 participants are accepted to the program, and topics may include labor, risk, strategy, crisis management and other areas identified by participants.

Roundtable Informational Reception

Thursday, July 27 | 4 to 5 p.m.

Wichita Regional Chamber of Commerce | 350 W. Douglas Ave.

RSVP to Jan Baggett at jbaggett@wichitachamber.org or 316-268-1113.

WICHITA REGIONAL CHAMBER OF COMMERCE

Why Participate?

“This program was an excellent forum to collaborate with other manufacturers and share best practices among peers, an opportunity that is typically quite limited. The guest speakers and materials provided were very useful and applied to many issues we are currently experiencing in our business environment today.”

-- *Ronnie Leonard, Balco*

“Whether we discussed individualized circumstances or broad topics of relevance to any manufacturer, participants were able to connect with one another and benefit from the combined experience of the group or the visiting subject matter experts. I’d recommend this opportunity to any manufacturing executive because growth is possible for those who engage in these sessions.”

-- *Joe Ontjes, Luminous Neon*

“Throughout the program, we had productive, engaging and well-facilitated sessions. The topics dealt with real-world issues and the time commitment was not burdensome. Through my participation, I believe I learned a great deal, developed relationships with some fantastic people and grew professionally in a way that will benefit all of our stakeholders.”

-- *Darrin Teeter, Fiber Dynamics*
